If you have one or more long-term condition(s), it is important that you have regular reviews, so your condition is properly managed and that you are offered the support that you need.

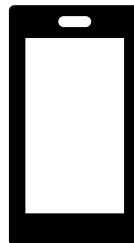

We aim to invite patients for their annual review around their birthday month (e.g. date of birth is 1st January 1962 is January birth month). Please wait for your invitation before booking an appointment.

Conditions covered by an annual review by birth month:

Asthma*
Chronic Heart Disease
Hypertension/High Blood Pressure
Dementia
Diabetes
Heart Failure
Mental Health
Non-Diabetic Hyperglycaemia
(Pre-diabetes)
Rheumatoid Arthritis
Stroke/TIA

*Asthma invites are sent separately so if you have asthma and one or more conditions you will receive two invites in a year

Your invitation will be a text message if a mobile number is available, and you have not declined to receive text messages or a letter if not.

At your appointment

– please make sure you cancel your appointment if you are unable to attend

At the appointment you will see a healthcare Assistant who will take your blood pressure, blood tests, weight, and urine test as appropriate as well as ask some lifestyle questions.

Depending on your condition(s) you may then need a second appointment with a nurse, nurse practitioner or GP – the healthcare assistant will let you know if this is the case.
